

Working At Height 2023/24

Welcome

When my father, Richard, began this venture over 45 years ago, he knew he wanted to do more than just start a business. His experience with the construction industry showed him how critical safety and well-being standards were to getting the job done properly while ensuring hard-working people made it home safely to their loved ones.

It was always his belief that more could be done to help contractors improve standards on-site by making people the heart of the process. It remains our belief that people matter more than products, and selling a good product is not enough. You might find that strange coming from someone who makes a living selling products, but it's absolutely true. Only the right product will do. For the right worker. For the right task. At the right time.

We as a team listen to our clients to truly understand their needs so we can deliver the right results every time. As a leading supplier to the industry, we also understand the importance of environmental and social

responsibility and the influence our practices have on our clients, partners, the environment and the communities in which we work.

In a climate where challenges seem to be plentiful, our innovation pushes us forward and helps us overcome opposition while fostering growth. Without growth, we would be left behind in a world where change is necessary for ourselves and our people to keep continually improving.

We are dedicated to building a better and safer future for all. Our objective is to provide the foundations for a better, cleaner, greener future, but we can't do it alone. It starts with all of us.

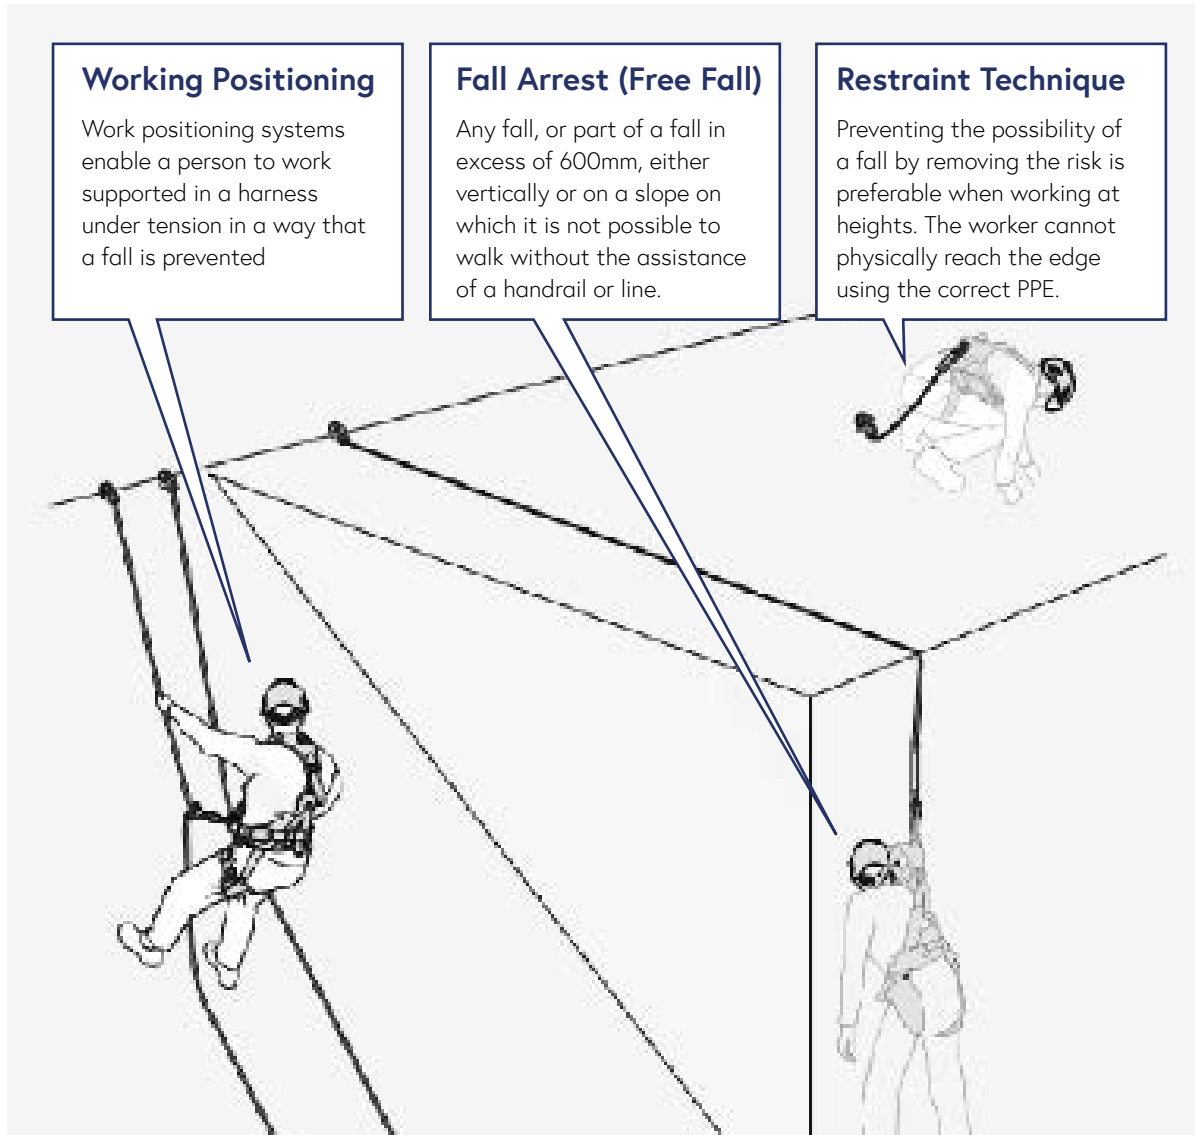

Your thoughts and feedback matter to me, so please get in touch with me personally if you have any questions.

Warren Lynes,
Managing Director

CHOOSING THE BEST WORKING AT HEIGHT TECHNIQUE

The best method of hazard control is eliminating the potential of a fall. Decide if the identified hazards are significant, how badly harmed would they be if they fell and how likely a fall could be?

These set the standard for the manufacture of equipment and application of safety systems. Fall protection systems should conform to the relevant Safety Standards. Safety standards are the minimum acceptable requirement.

European Standards (EN)

EN 341 Rescue descender devices

EN 353 Guided type fall arrester

EN 354 Lanyards

EN 358 Work positioning systems

EN 360 Retractable type fall arrester

EN 361 Full body harnesses

EN 362 Work connectors

EN 397 Industrial safety helmet

EN 566 Slings

EN 567 Rope clamps

EN 795/B Portable anchor devices

EN 813 Half harnesses

EN 1496 Rescue lifting devices

EN 1498 Rescue loops

EN 1891 Low stretch Kernmantle ropes

EN 12278 Pulleys

EN 12492 Helmets for mountaineers

EN 12841 Rope adjustment systems

EN 14052 High-performance industrial safety helmets

Fall Protection

JSP® Spartan™ Restraint Kit

- 1-point Spartan™ Harness
- 1.8m fixed length lanyard
- JSP® woven draw-string bag

Code

HN2MRK1

JSP® Spartan™ Single Fall Arrest Kit

- 2-point Spartan™ Harness
- 2m fall arrest lanyard
- JSP® woven draw-string bag

Code

HN2MT10T

ARESTA Scaffell Elasticated Safety Harness

- General purpose, adjustable harness
- Elasticated webbing providing high comfort levels during long shifts
- Quick connect buckles save time during donning
- Adjustable shoulder, chest, and thigh-straps for easy adjustment
- Rated to 140kg, weighs just 1500gms

Code

HN3MA04X

ARESTA Single Point Safety Harness

- Single point harness with standard buckles and rear D-ring attachment point
- High comfort soft webbing with adjustable chest and thigh straps for easy adjustment
- Rated to 140kg

Code

HN1TM10X

ARESTA Double Point Safety Harness

- General purpose harness with adjustable shoulder, chest, and thigh straps for easy adjustment
- Quick connect buckles with high comfort soft webbing and double point D-ring harness
- Rated to 140kg

Code

HN1TM20X

ARESTA MEWP Kit 1

- General purpose harness with rear D-ring attachment point and quick connect buckles
- High comfort webbing with 2m adjustable webbing lanyard
- Supplied with ARESTA drawcord kit bag

Code

HN2MAK1

ARESTA Scaffolder Kit 6

- General purpose harness with front and rear D-ring attachment points and quick connect buckles
- High comfort webbing and elasticated webbing lanyard with carabiner and scaffold hook
- 2m maximum length with energy shock absorber
- Supplied with ARESTA Kit bag

EN 361 :2002 EN 354 :2010

Code

HN2MT12X

ARESTA Scaff Fall Arrest Twin Lanyard

- Lightweight elasticated 1.5m webbing lanyard
- Twin legs ensures workers are always attached whilst moving from anchor to anchor
- Snaphook at the harness end and scaffhooks at the anchorage end
- Shock absorber to absorb energy in the event of a fall
- Rated to 140kg

EN 355 :2002

Code

HN3TMS20X

Webbing Anchorage Sling

- Versatile webbing anchorage sling adapts to a wide range of anchorage points
- Allows a safe and reliable connection when anchorages are not safe
- 27mm x 1200mm polyester webbing

EN 795 A, B

Code

HN5MJ02

ARESTA Scaffolder Kit 6E

- General purpose harness with front and rear D-ring attachment point and quick release buckles
- High comfort webbing with 2m elasticated webbing lanyard and energy shock absorber
- Carabiner and scaffold hook
- Supplied with ARESTA Kit bag

EN 355 :2002 EN 361 :2002

Code

HN2MMK2

ARESTA Retractable Lifeline

- Casing is made from high impact strength polymer to prevent breakage
- Provided with snap hook connector with load indicator at attachment end
- Built-in inertia brake with energy-dissipating mechanism
- Transportation handle makes the block simple to carry and install
- Rated to 140kg

EN 360 :2002

Code	Size
HN3FAB10	10m
HN3FAB15	15m

Fall Arrest Mini retractable lifeline

- Robust and cost-effective solution for different forms of working at height
- Screw lock karabiner top attachment and swivel self-locking hook complete with trigger opening
- Energy absorbing casing and shock absorber
- Rated to 140kg

EN 358 :2018

Code	Description
HN3L24	2.25m

Guided Rope Grab Fall Arrester

- Prevents workers falling during ascent or descent
- In the event of a fall the guided fall arrest grab will grip the rope preventing the worker from falling further
- Fitted with small shock absorber and safety snap hook to attach the harness
- Rope grab has a gate making it easy to fit and remove from the rope
- Rated to 140kg

EN 352-2

EN 358 :2018

EN 12481

Code	Description
HN3MF52	

ARESTA Restraint Lanyard Adjustable Webbing

- Adjustable safety lanyard for work restraint
- 25mm x 2m polyester treated with a water repellent coating to extend its life
- Steel screw gate karabiner at both ends for safety harness attachment and connecting to anchor points
- Rated to 140kg

EN 360 :2002

Code	Description
HN3WP88	2m

Rope Restraint Lanyard c/w Screwgate Karabiner each end

- Sewn end termination complete with plastic thimble eyes
- Ideal for workers who need to be prevented from reaching a fall hazard
- Must only be used in situations where there is no possibility of the worker falling

EN 354 :2010

EN 358 :2018

Code	Size
HN3RL01	1m
HN3RL15	1.5m
HN3RL02	2m

Vertical Safety Rope 14mm

- Low stretch rope with eyes at each end
- Suits HN3MF52 guided rope grab fall arrester

Code	Description
HN3MH10	14mm x 10m

Vertical Safety Rope 12mm

- Low stretch rope with eyes at each end

Code	Size
HN3RL20	12mm x 20m

ARESTA Horizontal Safety Line

- Temporary horizontal anchorage line for work restraint and fall arrest suitable for up to 3 workers at the same time
- Consists of: horizontal 20m safety line, integral storage bag for quick and easy storage of line, swivel snap hook connectors at each end and clear use instructions

EN 795 B

Code	Size
HN3HL5X	20m

Steel Screw Gate Karabiner

- Zinc plated, steel construction, screw gate karabiner with 18mm gate opening

EN 362 :2004

Code
HN5D05

Steel Scaffold Hook

- Zinc plated, light alloy, double action safety lock scaffold hook with 56mm gate opening

EN 362 :2004

Code
HN5ML04

Aluminium Twist Lock Karabiner

- Lightweight aluminium twist lock karabiner with 21mm gate opening

EN 362 :2004

Code
HN5ML02

Quick Lock Fall Protection Concrete Anchor

- Rapid install, removable anchorage point
- Can be used in horizontal, vertical and overhead concrete surfaces
- Requires a hole 18-19mm diameter and 110mm depth

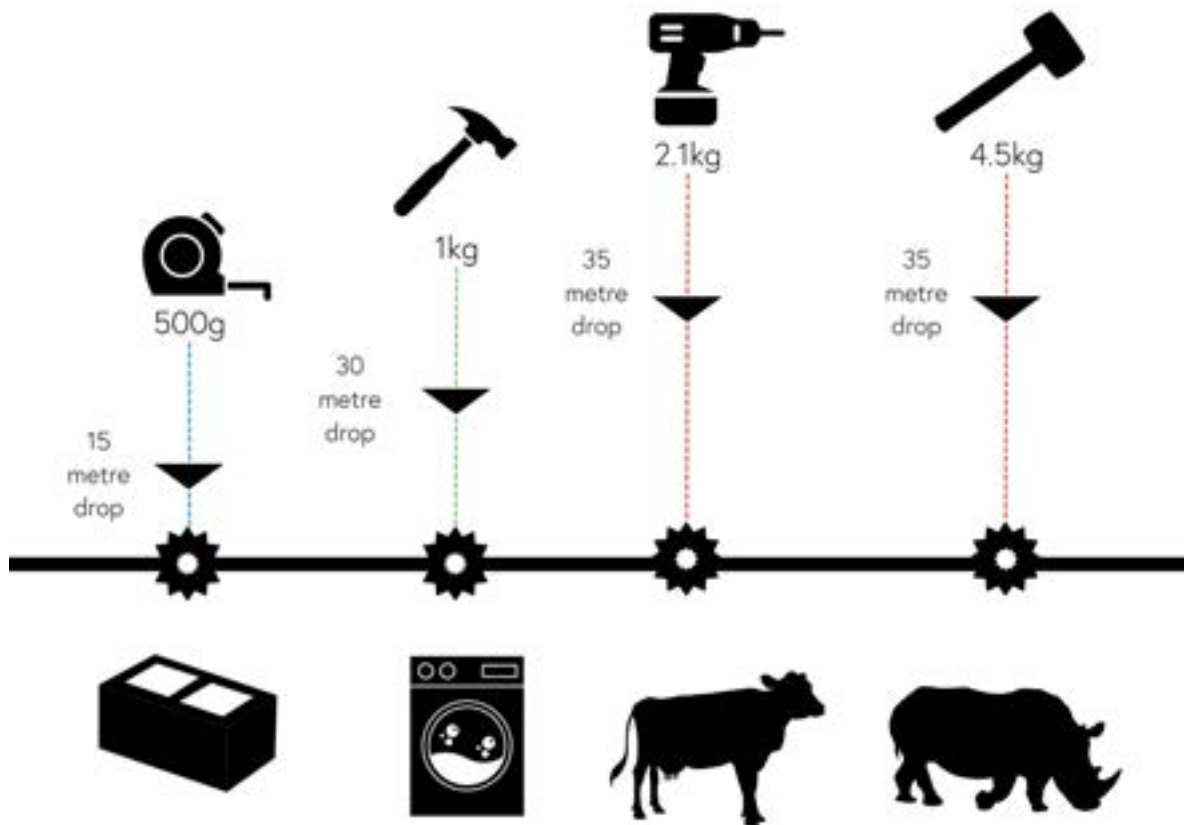

EN 795 B

Code
HN6AQ20

What happens when they drop?

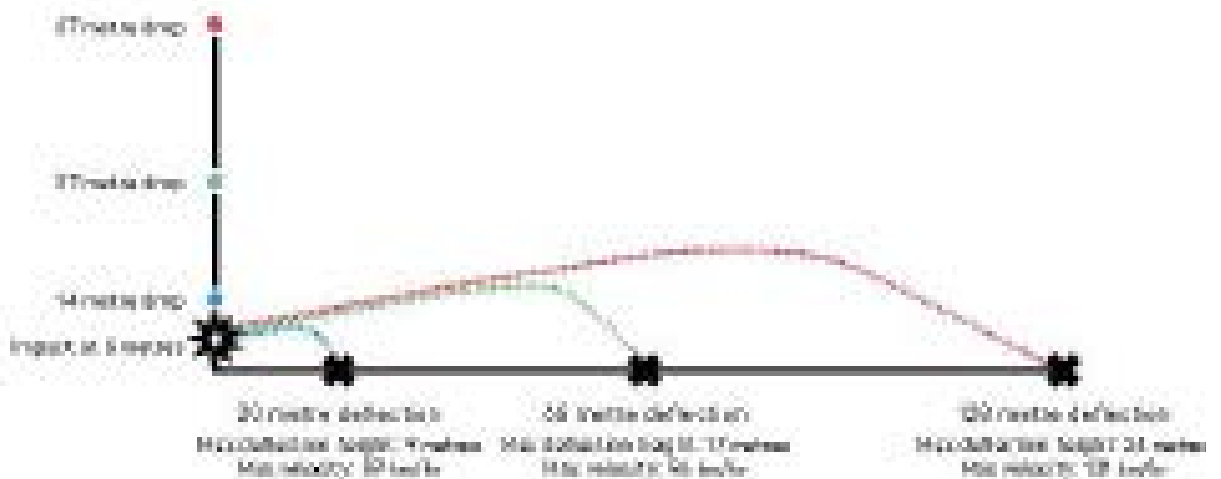

- A tool falling from 200 feet will hit the ground in under 3 seconds
- An object falling from 30 feet has an impact equivalent to 10 times its own weight
- Some UK organisations estimate the current cost to UK industry is approximately £265 million pounds per annum

*For illustrative purposes

Falling objects: deflection diagram

Objects don't just fall straight down! The diagram below illustrates how far a 3.6kg wrench can deflect after hitting a bar 6 metres off the ground

Hierarchy of Dropped Objects Protection

When considering options for managing dropped objects, this hierarchy must be followed and arrangements selected from the higher categories wherever possible.

Below are some examples.

Full Height Containment

- Climbing screens, full height edge protection

Collective Measures

- Protection, exclusion zones, sheeting, netting, etc.

Management Arrangements

- Material storage, prohibiting work in certain areas

Individual Measures

- PPE suitable for working at height including helmets certified to EN12492 with an increased impact resistance / shock absorption, chinstrap release over 500N, etc.
- Tool tethering

Eliminate The Object At Height

Full Height Containment

Collective Measures

Management Arrangements

Individual Measures

Tethered Tools

Tethered Box Scaffold Spanner

- Whitworth, bi-hex box scaffold spanner
- Lanyard tailored to the product to allow virtually unrestricted use whilst tethered

Code	Size
HTASSP-716	7/16"

Stabila Tethered Magnetic Boat Level

- Famous Stabila quality with horizontal and vertical vials
- Comes with tool tether ring

Code	Size
SV5STBL-T	250mm

Tethered Tape Measure

- Basic locking tape measure with tethering loop for working at height

Code	Size
TM5T05	5mtr
TM5T08	8mtr

Tethered High Leverage End Cutting Pliers

- Durable joint and precision cutting edges
- Suitable for twisting and cutting wire in one operation

Code	Size
PL2CT250	250mm / 10"

Tool Tethering

FallProof Coil Lanyard

- Double swivel fittings allow secure attachment to a wide range of tools
- 1kg SWL

Code	Size
SFAHCTLD	0.45m - 1.5m

FallProof HD Coil Lanyard

- Double aluminum twistlock karabiners allow secure attachment to a wide range of tools
- 2.5kg SWL

Code	Size
SFTCL18A	0.53m - 1.5m

FallProof Personal Tool Lanyard

- Comes with Aluminum screwgate karabiner and barrel Choke
- Secure attachment to a wide range of tools
- 6.8kg SWL

Code	Size
SFAHELAK3	1.3m

Personal Webbing Tool Lanyard c/w Single Stainless Steel Screwgate Karabiner and Quick Release Clip

- Quick release clip allows the same lanyard to be used for several different items
- Supplied with a 'quick change' tool loop accessory
- Replacement tool loop with quick change clip SFAHDL-RL-250
- 2.2kg SWL

Code	Size
SFAHGKTLR	0.6m - 1.2m

Tool Lanyard Webbing Loop with Quick-Release Clip

- Elasticated tool loop for use with quick change lanyards to enable fast switching of tethered tools
- 2.7kg SWL

Code
SFAHDL-RL-250

Personal Webbing Tool Lanyard c/w Twin Stainless Steel Screwgate Karabiners

- Heavy-duty tool lanyard designed for small hand tools
- 6.8kg SWL

Code	Size
SFAHGKTL	0.5m - 1.06m

Personal Webbing Tool Lanyard c/w Single Stainless Steel Screwgate Karabiner and Barrel Choke

- Heavy-duty lanyard designed for small hand tools
- Elasticated barrel loop for choking tools
- 6.8kg SWL

Code	Size
SFAHGKL	0.6m - 1.2m

Fixed Anchorage Tool Lanyard c/w Single Stainless Steel Screwgate Karabiner and Webbing Loop

- High capacity fixed tool lanyard allowing superb working capability when working with large items
- Use with SFASTLAS webbing strap
- Short retracted length allows freedom of movement
- 11.3kg SWL

Code	Size
SFASTL11	1.25m - 3m

Webbing Strap to Suit SFASCTL11

- Versatile webbing anchor strap to attach karabiner to fixed point anchorage point

Code	Size
SFASCTLAS	500mm

Scaffold Spanner Tool Coil Lanyard c/w Single Swivel and Wrist Choke Loop

- Lightweight and low profile tool lanyard with plastic coil sheath
- Designed for attachment to tethered box scaffold spanners
- 1kg SWL

Code	Size
SFAHCTWS	0.45 - 1.5m

Lightweight Coil Tether

- 5" Retractable plastic lanyard with VersaClamp® and rope clip
- 0.65kg SWL

Code
CC5PHSNP

Plastic Coiled Key Chain

- Stretchable spring, high-quality plastic
- Durable and wear resistant
- Pack of 12

Code	Size
SCLP20	200mm

Retractable Tool Lanyard c/w Quick Release Barrel Choke and Stainless Steel Karabiner Mounted

- Lightweight retractable tool lanyard ideal for enabling fast tool changes
- Reduces the risk of lanyard entanglement
- Supplied with one 'quick change' tool loop accessory
- 0.9kg SWL

Code	Size
SFGKRTL32	1.06m

Premium Retractable Wrist Lanyard c/w Quick Change Tool Loop

- Unique reinforced webbing wrist lanyard with integrated retractor
- Enables fast changing of tethered tools
- Supplied with one 'quick change' tool loop accessory
- 0.45kg SWL

Code	Size
SFAHWLR	0.9m

Premium Wrist Lanyard c/w Quick Change Tool Loop

- Heavy-duty wrist lanyard with reinforced webbing for increased comfort and support
- Quick change tool capability without removing wrist strap
- Supplied with one 'quick change' tool loop accessory
- 13" Extension
- 2.7kg SWL

Code
SFAHWL-DL

Retractable Mobile Phone Tether

- Retractable device allows use of mobile phone or similar device while securely attached to belt or waistband
- Prevents drops, loss and damage
- Belt mounting rotates 360°

Code

SFARMPT

FallProof Retractable Two Way Radio Pouch with Tether Loops

- One size fits most retractable radio holder
- Belt or harness mounting
- Wire retractor or coil lanyard
- Supplied with hardware to make tether ready for use

Code

FPRH05

Belt Mounted Retractable Two Way Radio Tether

- Locking retractor device has a strong retraction force for larger devices
- Secures to most two way radios using either spilt ring attachment or a choking loop around belt clip
- Belt mounting rotates 360°

Code

SFABMRRT

FallProof iPad Pouch

- Ideal pouch for iPads when working at height or generally on site

Code

Description

SFAIPP2 8"(W) x 10"(H) x 4"(D)

Universal Mobile Phone Holder with Lanyard

- Secure your mobile phone without impacting usability
- Suitable for 4" - 6" phones

Code

SFAMPT1

FallProof Safety Helmet Lanyard

- Excellent alternative to a chin strap
- Easy-release clamp secures to almost anything
- One size fits all
- 0.9kg SWL

Code

SFASHL

Retractable Safety Helmet Lanyard c/w Barrel Choke and Velcro Strap

- Practical alternative to elasticated lanyards or chinstraps
- Quick and easy to fit
- Attaches to the helmets harness tri-ring or strap
- 0.5kg SWL

Code

Size

SFARHHL 355mm extension

Tethered Cordless Power Tool Boot

- Securely wraps around the battery portion of drills, impact drivers and other cordless power tools
- D-Ring Connection point attaches to a lanyard to prevent drops
- 1000D nylon with water resistant backing
- Will fit cordless power tool batteries up to 12.5mm x 9mm x 9mm
- 2.7kg SWL

Code

SFAPTWL

Tethered Cordless Power Tool Wrap

- Securely wraps around the battery portion of drills, impact drivers and other cordless power tools
- D-Ring Connection point attaches to a lanyard to prevent drops
- 1000D nylon with water resistant backing
- Will fit cordless power tool batteries up to 12.5mm x 9mm x 9mm
- 2.7kg SWL

Code
SFAPTWL01

Arsenal Padded Tool Belt

- Heavy-duty, thick, vented foam padding for comfort
- Nickel-plated 2" double tongue metal roller buckle
- Nickel-plated grommets set firmly for durability and Nickel-plated suspender anchors

Code	Size
SFAPTB3-XL	3" Extra Large

Tradesmans Leather Tool Belt

- UK made quality leather work belt
- Suitable for use with a wide range of tool frogs and holders
- Fits up to a 38" waist
- Includes chalk/pencil holder

Code	Size
STL14038	50mm

Belt Adaptor with 2 Scaptured Screwgate Karabiners

- Handy personal tool lanyard attachment point
- Fits standard 2" work belts
- 2.7kg SWL

Code	Size
SFETBKA	50mm

Leather Snap-in Hammer Holder

- Snap-in holder allows fast hammer return with tool lanyard still attached
- Swing function keeps hammer vertical
- Created from top grain leather
- Fits on up to 4" work belts

Code
STLSIHH

FallProof Tethered Tape Measure Holder

- Provides protection for tape measures from knocks and bumps whilst preventing the item falling beyond the length of the connected lanyard
- Retro-fit sleeve suits most brands 5m – 8m tape measures
- Complete with belt clip to rear permitting traditional clipping and unclipping

Code
FPTS05

FallProof Heavy-Duty Hammer Holder

- Heavy-duty stainless steel, belt-mounted snap-in hammer holder
- Suits up to 2" belt

Code
FPHL05

FallProof Adjustable Belt loop Attachment

- Velcro belt loop attachment with encapsulated D-ring attachment point

Code	Size
SFEFBLA	2" - 3"

FallProof Canvas Parts Pouch

- Best-in-class self-closure system keeps objects such as nuts, bolts, screws etc. securely enclosed
- Compatible with both tool belts and harnesses
- Easy to clean material that repels oil
- Max load (D-ring) 2.5kg, max load (Pouch) 5kg

Code	Size
SFAPP5	3" Extra Large

FallProof Lifting Bucket with Dual Action Karabiner

- Fully load rated reinforced lifting straps allow easy transportation
- Reinforced dual-layer mesh with heavy-duty Velcro closure prevents accidental spills
- Strong composite insert in the base protects against punctures with built-in tether anchor points inside the bucket
- Made with extra heavy-duty oil repellent vinyl
- 113kg Max Load

Code	Size
FPTB2	

Heavy-Duty Scaffold Fittings Transit Bag

- Cost-effective and versatile bag for getting materials or fittings to the work area
- Made from extra tough UV-resistant, woven polypropylene
- Circular base keeps bag open whilst loading
- 30kg SWL

Code
SFESFB30

FallProof Aluminium Clipboard with Lanyard Attachment Points

- High-force metal clips
- Two lanyard attachment points
- Ideal for surveyors or management staff working at height

Code	Size
SFETMCB	350mm x 250mm

FallProof Cable Loop Attachment

- Retro-fit option that allows you to create an approved tether point in seconds
- Ideal for use on most tools including, hammers, saws, screwdrivers, adjustable spanners, ring and open end spanners
- 1kg SWL

Code	Size
SFACL2	120mm
SFACL4	150mm

FallProof Elasticated Wrist Tether Point

- For securing small/ lightweight hand tools when working at height
- 2.3kg SWL

Code
SFAEWL

Tether Loop Attachments

- Crimped and thimbled length of wire allows tethering of odd shaped tools and items
- Each tether loop has a protected label identifying the load rating

Code	Size
SFERTLA-75	7.5"
SFERTLA-105	10.5"
SFERTLA-125	12.5"

Attachment Webbing with Plastic D-Ring

- High-strength nylon webbing with encapsulated D-ring for attaching lanyards to tools using attachment tape or shrink rings
- Non-conductive, ideal for electrician's tools
- Use with SFERSAT-RF
- Pack of 25

Code	Size
SFERAWP-070	70mm x 12mm

FallProof Dual Wing Tool Choke

- Certified for tools up to 16kg and provides an excellent option for securing a wide range of tools
- To be used with SFERSAT-RF Self amalgamating tape

Code	Size
SFATC1	400mm

Attachment Webbing with Steel D-Ring

- High-strength nylon webbing with encapsulated D-ring for attaching lanyards to tools using attachment tape or shrink rings
- Use with SFERSAT-RF
- Pack of 25

Code	Size
SFERAWS-070	70mm x 12mm
SFERAWS-085	85mm x 25mm
SFERAWS-300	325mm x 25mm

Reinforced Self Amalgamating Webbing Attachment Tape

- Perfect temporary solution for awkward-to-tether items
- Doesn't require equipment or a heat source to install
- Easy to remove and leaves no residue

Code	Size
SFERSAT-RF	25mm x 10.9m

Heat Shrink Cylinders with Rotating Lanyard Ring

- Cylinder fits around the base of the tool handle providing a rotating lanyard attachment point
- Fast and easy installation
- Pack of 4

Code	Size
SFERHCH-1931	Fits 19mm - 31mm handles

High Strength Adhesive Heat Shrink Rings

- High-strength, adhesive shrink tubing with an integral captured webbing loop
- For use on tools with enlarged ends
- Pack of 10

Code	Size
SFERHSR-1944	19mm x 44mm
SFERHSR-2544	25mm x 44mm
SFERHSR-3550	35mm x 50mm
SFERHSR-5050	50mm x 50mm
SFERHSR-7100	71mm x 100mm

Industrial Heat Gun with Nozzle Kit

- 50 - 600°C variable temperature control
- Removable front ring enables use in tight spaces
- Ergonomic closed grip handle

Code	Description
PSFEHG-110	110 Volt
PSFEHG-240	240 Volt

Rubber Tool Collar c/w Rotating Plastic Tethering Ring

- Slides onto tool shaft to provide a fully rotating attachment point
- Does not obstruct the tool handle or function
- Quick and easy to fit – no tools required
- Non-conductive
- Pack of 25

Code	Size
SFETCPL-2439	Suits 2.4 - 3.9mm shafts
SFETCPL-3963	Suits 3.9 - 6.3mm shafts
SFETCPL-5579	Suits 5.5 - 7.9mm shafts

Rubber Tool Collar c/w Rotating Steel Tethering Ring

- Slides onto tool shaft to provide a fully rotating attachment point
- Does not obstruct the tool handle or function
- Quick and easy to fit – no tools required
- Pack of 25

Code	Size
SFETCSS-3963	Suits 3.9 - 6.3mm shafts
SFETCSS-5579	Suits 5.5 - 7.9mm shafts

Leather Flat Scaffolders Spanner Clip

- Quality leather belt loop with integrated karabiner for traditional tool holding

Code
STLFSC

Lanyard Attachment Double D-Rings

- Customized to create a simple and fast lanyard attachment point for tools with enlarged ends
- Eliminates the need for attachment tape or heat shrink systems
- Unique pin design to help prevent backing out
- Easy to clean and cost effective

Code	Size
SFEDDR1	10mm x 15mm
SFEDDR2	19mm x 25mm
SFEDDR3	21mm x 38mm
SFEDDR4	33mm x 60mm

FallProof Stainless Steel Wide D Shackle for Tethering Estwing Hammers

- Incredibly strong and hard-wearing 6mm stainless steel

Code
HR4WDS

Split Rings

- Quick and easy install to pre-drilled manufacturer holes on tools
- Provides an attachment point for lanyards and tool tethering

Code	Size
SFASR04	10mm
SFASR06	15mm
SFASR100	25mm
SFASR125	31mm
SFASR150	38mm
SFASR200	50mm
SFASR300	75mm

Don't let your team mate
become another statistic...

Tether your tools.
